DISCORD

How to connect + wallet verification

"THIS IS HOW YOU GET INTO THE BFN COMMUNITY"

betfin
network

What is Discord? and why we use it

Discord is a place where:

- the community lives
- ongoing support and leadership
- we share instructions, news and records

It's just an app — like Messenger, only more streamlined.

1) How to download Discord

Mobile (iPhone / Android)
App Store / Google Play → Discord → Download → Open

Computer (Windows/Mac)
https://discord.com/download
Download → Install → Open

2) How to create an account (if you don't have one)

1. Open Discord
2. Klikni Create Account
3. Enter email and password
4. Confirm email (if prompted)

Done.

3) Connection via Betfin backoffice

1. Log in to Betfin backoffice
2. Click Join Discord in the "NEWS" section.
3. Discord will open automatically
4. Confirm Join / Connect

You are inside the server.
You don't have to search for anything manually.
You can handle everything with one click from the backoffice.

4) Wallet verification via Collab.Land

Why verification is needed

- Discord doesn't recognize that you own a Betfin Pass
- verification will open locked channels for you
- protects the community from scammers

Is it safe? → YES.

Collab.Land:

- is the most widely used Web3 verification tool
- does not need private keys
- you are not signing any transaction
- it only verifies that the wallet belongs to you

You are not sending money.
No one has access to them.

5) VERIFICATION PROCEDURE (STEP BY STEP)

How to verify your wallet

1. Open the #verify channel on Discord.
2. Click Verify / Verify wallet
3. Collab.Land opens
4. Choose a wallet:
   - MetaMask
5. Confirm connection

Within a few seconds:
- you will get the role
- all channels will open

When the role doesn't unlock

1. Refresh Discordu
2. Repeat verification
3. Write to the support channel → We will help you.

And you're done.

Now you can:
- follow the news
- to be part of the community
- use the complete ecosystem
- participate in training and recordings
- growth in leadership

Welcome to the Betfin Network.

What is Discord?
And why we use it

Discord is not just a chat or a tool.
Discord is the HEART of the COMMUNITY.

It is a space where:
- **people from all over the world meet**
- **energy, vibe and momentum are created**
- **the community grows, supports and educates**
- **we build leadership, mentoring and training**
- **teams, business and friendships are formed**
- **we build a culture that holds the entire ecosystem together**

Technology is the brain.

We - the community - are the heart.

And Discord is our place where it all lives.

1) How Discord is structured

To help you quickly navigate, here is an overview of the main sections and their purpose.

ONBOARDING 🧭

- **#start-here**

→ First step. Brief introduction + what to do next.

- **#verify**

→ Wallet Verification → opens the entire server.

- **#need-help**

→ Quick help for newcomers when entering (not technical errors).

WELCOME

- **#welcome**

→ Official welcome to the community.

- **#choose-gender**

→ Role selection (Ladies / Gentlemen).

- **#rules / #rule**

→ Rules and safety principles.

- **#safety**

→ Protection against scams and fraudsters.

- **#official-links**

→ Only official links — use only these.

SUPPORT

This includes technical questions:

- **wallet verification**
- **Collab.Land**
- **staking / unstaking**
- **wallet errors**
- **application problems**

- **#support-chat**

→ **Write briefly, clearly and with detail.**

- **#open-ticket**

→ **Personal solutions to specific problems.**

- **#ticket-transcripts**

→ **History only — not for writing.**

COMMUNICATION

- **#general-chat**

→ **Main community — vibe, networking, sharing.**

- **Language channels:**

→ 🇺🇸 **English |** 🇨🇿 **Czech–Slovak |** 🇩🇪 **German |** 🇪🇸 **Spanish**

- **#off-topic**

→ **Free topics outside Betfin.**

- **#betfin-ladies**

→ **Women's community in Betfin Network.**

ANNOUNCEMENTS 📢

- **#announcements**

→ **Top news from AB / leadership.**

- **#builders-announcements**

→ **Update for the developing network.**

- **#betfin-blog**

→ **Education, articles, official texts.**

2) How to search for information (before you write a query)

Use Search (magnifying glass) as a first step.
Search keywords:

- collab land
- verify
- staking
- wallet
- matching
- error / probably

90% of things have already been solved by someone.

3) How to write questions correctly

A) The right channel

- technical stuff → #support-chat / #open-ticket
- general communication → #general-chat
- language → to your language channel

B) Briefly + with context

Poorly:
"Help, it's not working for me." Correct:
"Hello, I can't verify through Collab.Land.
MetaMask, iPhone 12, Safari.
Error: signature rejected. Restart attempted."

C) What to add to the query

- device (mobile / PC)
- wallet
- screenshot of the error
- What have you already tried?

→ The answer will be quick and accurate.

D) Tagging

- ✓ tag @mods when necessary
- ✗ don't tag leadership without a reason
- ✗ don't tag in general chat

betfin
network

4) How to be active but not overwhelm the chat

- write valuable things (tips, experiences, summaries)
- help newcomers
- Don't send support to the wrong channels.
- use emoji instead of "thanks", "great"
- keep a professional vibe

The goal is not spam.
The goal is support, growth and energy.

5) Leadership & leader mentality on Discord

If you are building a network or want to grow as a leader:

- be visible and consistent
- help orient newcomers
- inspire, don't be boring
- lead by example

Leader does not make noise.
A leader creates clarity, energy, and direction.

WHAT TO TAKE AWAY

Discord is the heart of the Betfin Network.
What you put into it, you get back:

- support
- opportunities
- relations
- motivation
- leadership

By following this guide, you help grow - both yourself and the entire community.
