Creating a MetaMask wallet

(Social Login + Passkey + Seed Backup)

1. Download MetaMask

iPhone (iOS)

App Store → MetaMask – Crypto Wallet

Android

Google Play → MetaMask – Crypto Wallet

2. Create a wallet (recommended: Social Login)

- 1. Open MetaMask**
- 2. Click Create new wallet**
- 3. Choose Continue with Google or Continue with Apple**
- 4. Log in**
- 5. Create a strong password to unlock the app**

→ The wallet is created → The seed phrase was created automatically in the background and you can find it in your wallet in the settings (we will show you how)

I. MOBIL

3. Social Login – how it works

MetaMask is protected by:

- Google account / Apple ID
- Passwords and passkeys

You don't need to use the seed phrase,
but it always exists in the background.

You will use it when:

- You will lose your phone
- You will lose access to your Apple / Google account
- Do you want to restore your wallet elsewhere

How to find the seed phrase in MetaMask mobile

1. Open MetaMask
2. Profile icon (top left)
3. Settings
4. Security & Privacy
5. Secret Recovery Phrase
6. Reveal
7. Verify with Face ID / password

→ 12 words will appear → Write them down immediately
(you will learn what to do or not to do on the next page)

IMPORTANT PRINCIPLES FOR SEED PHRASE

- ✗ Never take photos or print screens
- ✗ Never save to phone / PC / cloud
- ✗ Never send to anyone

- ✓ Handwritten on paper
- ✓ Stored offline
- ✓ Ideally 2 copies in different locations

Seed phrase = access to all money.
Whoever has it owns the entire wallet.

4. PASSKEY activation (recommended for everyone)

1. Settings
 2. Security & Privacy
 3. Passkeys → Enable
 4. Confirm Face ID / Touch ID
- Biometric-protected login

5. View wallet address

On the main screen, click on the address 0x...
→ Copy → send wherever you need

II. PC / NOTEBOOK

MetaMask Extension + Seed Backup

1. Installing the MetaMask Extension

1. Open <https://metamask.io>
2. Download → Chrome Extension
3. Add to browser

2. Login / Link Wallet

If you have Social Login from your mobile:

- Click Import wallet
- Continue with Google / Apple

→ You don't have to enter a seed

Viewing the seed phrase on a PC

1. MetaMask → Profile
2. Settings
3. Security & Privacy
4. Reveal Secret Recovery Phrase
5. Enter password

- Seed is the same on mobile and PC

III. How to back up your seed properly

- ★ Write the seed by hand
- ★ Make two copies
- ★ Store outside the digital world

Recommended places:

- safe
- locker
- security envelope
- with parents/partner

Never seed:

- support
- admins
- "bounty collectors"

Anyone asking for seed = scammer
